👤 PROFILE

Dedicated and enthusiastic recent graduate with a educational background in Computer Science and Engineering from KLE Dr. M. S. Sheshgiri College of Engineering and Technology. Eager to kick-start my career to contribute my knowledge, creativity, and passion. Seeking an opportunity to learn and grow while making a meaningful impact.

🧩 OBJECTIVE

A highly motivated Computer Science and Engineering graduate seeking a challenging and dynamic role where I can leverage my strong technical skills, problem-solving abilities, and innovative mindset. I am dedicated to delivering efficient solutions and staying current with emerging technologies to meet the ever-evolving demands of the industry.

📁 PROJECTS

AI ASSISTANT (PYTHON) :

A virtual assistant, also called an AI assistant or digital assistant, is an application that understands natural language voice commands and completes tasks for the user.

DAIRY MILK COLLECTION AND BILLING SYSTEM :

This is a web portal developed in order to encourage dairy shops and enterprises to take their business online. Our projects help milk suppliers and shopkeepers to maintain all the records related to the customers and their pending bills.
